

Netec offers a range of precision manufactured Line Taps. Both series offered are made from High Tensile Brass and machined on precision computer controlled CNC centres. All Components are made from Brass Extrusion (not Brass Casting). All Line Taps have a combined plating mix of Nickel and Tin. The combined mix has a high durability and withstands oxidation better than just Tin. Our “DT series“ are tapped and drilled to allow an M6 screw to be fixed through a mounting surface.

Specifications

- * Material: High Tensile Brass
- * Plating : Nickel / Tin
- * M6 Tapped base Line Taps available (BLT-xx-DT)
- * All components made from Brass extrusion (not cast)
- * RoHS Compliant

Line Taps - High Tensile Brass

Part	Maximum Cable Size	Mount Hole Size
BLT-22	16mm ²	N/A
BLT-24	35mm ²	N/A
BLT-25	70mm ²	N/A
BLT-26	95mm ²	N/A
BLT-28	185mm ²	N/A
BLT-22-DT	16mm ²	M6 Tapped
BLT-24-DT	35mm ²	M6 Tapped
BLT-25-DT	70mm ²	M6 Tapped
BLT-26-DT	95mm ²	M6 Tapped
BLT-28-DT	185mm ²	M6 Tapped
